Representative Courses of Study (For Entering 9th-Graders)

Students entering with some exposure to algebra but not a solid grasp of first-year algebra will likely take the following:

Grade	First Semester	Second Semester
9	Intermediate Algebra	Geometry Part 1
10	Geometry Part 2	Algebra 2
11	Statistics and Probability	Trigonometry
12	Precalculus (or Advanced Econ)	Calculus (or Advanced Stats)

Students entering with a solid grasp of first-year algebra but no geometry will likely take one of the following sequences, depending on their ability to learn math quickly and deeply. Sometimes students start in one sequence and move to the other.

Standard Sequence		
Grade	First Semester	Second Semester
9	Geometry Part 1	Geometry Part 2
10	Algebra 2	Statistics
11	Precalculus	Trigonometry
12	Calculus A (or Advanced Econ)	Calculus B (or Advanced Stats)

Accelerated Sequence		
Grade	First Semester	Second Semester
9	Geometry Part 1	Geometry Part 2
10	Accelerated Algebra 2	Accelerated Trigonometry
11	Accelerated Precalculus	Calculus A
12	Calculus B	Calculus C

Students starting beyond Geometry take similar sequences earlier and are eligible to take some post-calculus courses.
